ANIMAL KINGDOM

Two kingdom

Animal — Plant.

→ Carlous Linnaeus give kingdom theory

→ Father of Animal kingdom Carloup Linnaeus

→ Carloup Linnaeus give scientific names to Animals.

Taxonomy - study of Animal kingdom

हेकेल :- give 3 kingdom classification —

Living being

Animalia — Protista — plantae

कोपलैंड - gives 4 kingdom classification.

Living being

- Animalia
- Protista
- Plantae
- Monera

R.H. Whittaker :— 5 kingdom classification

- Plants
- Animals
- Protista — Eukaryotic + unicellular
- Monera
- Fungi

Prokaryotic cells

- unicellular Organism
- Nuclear memb

Trick to learn

KINGDOM → Animal	K
↓	
PHYLUM → Chordata	P
↓	
Class → mammalia	C
↓	
ORDER - carnivore	On
↓	
FAMILY → canidae	Family
↓	
GENUS → canis	Genius
↓	
SPECIES	S

How Life developed on earth

- Two cells.

FUCA
LUCA } further mutate.

Fish → Amphibians → Reptiles → Birds → Mammals.

Respiratory Organ

Fish → Gills

Birds → Lungs

Reptiles → Lungs

Amphibians → Lungs / skin / Gills → Hybernation.

mammals → Lungs → जमीन

→ Hybernation

- Process where any creature being in rest.

Heart Chamber:

- Fish → 2 chamber (single circulatory system) (Dolphin, whale (4))
- Birds → 4
- Reptiles → 3 (घड़ियाल, मगरमच्छ (4))
- Amphibians → 3.

. Mamals → 4 chamber heart.

phyllom :- Group of animals → 11

Protozoan :—

→ single cell जीव

→ Aquatic

→ No tissue & No organ

Ex. Amoeba, Euglina, Paramicium, Plasmodium

Phyllum +

	Trick to Learn
Poriferа –	– पौ
Celentata	– की
Ctenophora	– तीनो
Platyhelminthus	– प्लेट
Aschelminthis	– a
Annelida	– a
Anthropoda	– a
mollusca	– म
Echinodermeta	– रखा
Chordata	– है

Porifera :—

→ Pores
→ अलैंगिक जीव
→ Eukaryotic organism
→ multicellular
→ Pores → ostia
→ Non-motile

Ex - Sycon, Spongilla
Hyalonema.

Cnidaria :-

→ No Blood
→ Heterotroph

Ex - Hydra, ~~[illegible]~~ Porpita, Oblia, Coral animals.

Ctenophora :-

→ No blood
→ Transparent
→ Marine Water

Ex Jelly fish (Aurelia).

Digest - incomplete
Alimentary Canal
→ Bio-luminous
→ Tissue Present

Respination → Body sunface.

Excretion →

Reproduction → cross Fertilization

→ Neuron Present

Ex - Pleurobrachia, ctenoplana

Platyhelmenthis

Germ layer → organ formation

→ Flat body

→ Alimentary canal

→ Parasite

Reproduction

Sexual

A-sexual

Liverfluke, Planaria

Ex: Tennia (Tapeworm)

phajilla (यष्टद कृम)

Excretion :-

उत्सर्जन → flame cell

Nematoda :-

Group of ashchelmentis.

→ Round worm

→ Free/Parasite

→ Ascaris

↳ scabies disease

↳ Small Intestine

→ organ system

→ Almentary canal.

Ex - wuchereria

Reproduction

Male

→ sexual organ → small

→ No. circulatory system

→ Respiration → organ to organ

Annilida :-

Small rings on their body.

Land + Aquatic.

→ Body segmented

→ sexual Reproduwction.

→ free /Parasite.

Ex : Earth warm, leech

Annelida

- Class Polychaeta
  ↓
  Live in water
  Ex. Nereis (2 pair eyes)
  Parapodium.
  male + female
- Class Olijo chaeta
  ↓
  Land
  Ex - Earthworm
  m + f
- Herudina
  ↓
  Fresh water
  leech
  Food → Blood
  Pond

→ Alimentary canal

→ Closed circulatory system

→ Blood is Present

→ Earthworm Heart → 5

Molesca

Organ system

→ Soft body

→ 2nd Largest Phyllum

→ $CaCO_3$ → आवरण (Layer).

→ जलीय जीव + Land

→ Gills (Aquatic animals)

→ Devil fish

Octopus (Blue Blood)
↳ ~~Hae~~ Haemoganin (Cobalt)
↳ Arms Lift.

Ex - Octopus, Pearl oyster, apple snail, Snail.
↓ ↓
Sepia Pila.

Arthropoda

Arthro → Joint

poda → leg.

83%

↳ Largest Phyllum
↳ Joint legs.
↳ Head ; Leg, stomach
↳ परपोषी
↳ हवा, पानी, जमीन

Exoskeleton layer → outer layer body.

→ Chitin, Carbohydrate

→ Alimentary Canal

→ Nervous System

Ex - Insect (cockroach, Butterfly)

13 chamber (7A, 6V)

White blood Haemolymph

Ex ~~Octopus~~

Echinodermata:

Echino → spines.

→ Marine water

Ex. Starfish, sea cucumber, sealily.

Organ system, Sexual. organ seperated

Sea urchin (Echinus)

Hemi - chordata.

→ marin water

→ Lazy animal.

→ Eat → sand + minerals

→ Respire → Gills.

→ M + F

→ Reproduction → External Reproduction

→ Organ System

→ Open circulatory system

→ Excretion → Proboscis gland.

Ex. Balanoglossus & saccoglossus.

Chordata:

रीढ़ की हड्डी

Notochord → Children

1. Aves
2. Pisces
3. mammals
4. Amphibian
5. Reptiles

Mammals

Prothenia
↓
Egg laying
→ Echidons
→ Skapadon

metathenia
↓
Pouch
↓
Eg:- Kangaroo

Eutheria
↓
Placental Animal
↓
Human beings, Dog
cat

Largest mammals → Whales, Dolphin

Smallest " → Bat, Rat
