

Scientist and Inventions

- Nobel Prize named after Alfred Nobel who discovered
⇒ Dynamite
- The inventor of lightning conductor is:-
⇒ Benjamin Franklin
- Who invented television?
⇒ J.L. Baird
- Who invented X-ray?
⇒ Röntgen
- Which Scientist discovered the telescope?
⇒ Galilean
- Who invented Aeroplane?
⇒ Wright Brothers
- Who invented the gas engine?
⇒ Daimler
- Who developed the atomic Bomb?
⇒ J. Robert Oppenheimer
- Who developed the missile?
⇒ Werner Von Braun

• who developed the hydrogen bomb?

⇒ Edward Taylor

• who invented the laser?

⇒ TH Mamon

• who invented the electron microscope?

⇒ knoll and Ruska

• which of the following pair is not correctly matched?

⇒ J. Parkinson - Penicillin

• who invented jet engine

⇒ Frank Whitley

• who is the inventor of Scooter?

⇒ Dr. Kevin

• The discoverer of nuclear reactor is

⇒ Enrico Fermi

• who invented wireless?

⇒ marconi

• who was the inventor of the fountain pen?

⇒ waterman

• which of the following was invented by Alexander

Graham Bell?

⇒ Telephone

• The inventor of the safety lamp is

⇒ Davy

• Who invented the electric bulb?

1) Thomas Alva Edison

• Who invented the barometer?

1) Evangelista Torricelli

• Who invented the electronic computer.

1) Eckert and Mauchly

• LED's who invented.

1) Nick Holonyak

• Who invented the machine gun

1) Jordan Gatling

• Who invented safety razor.

1) Gillette

• Who invented the mercury thermometer

1) Fahrenheit

• Mark the wrong pair from the following:

1) Madame Curie - Dynamite

• Who invented the diesel engine.

1) Rudolph Diesel

• 8. exomometer is used for.

1) Curvature of the surface plane

Uses of

- Manometer $\rightarrow$ Pressure
 - Carburetor $\rightarrow$ Internal combustion Engine
 - Cardiograph - heart Plane
 - Seismometer -
 - Anemometer - wind speed
 - Ammeter - current
 - Tachometer - ~~ps~~
 - Pyrometer - high temperature
 - Stroboscope - Rotation per second of flying wheel.
 - cyclotron is used to accelerate - α ion
 - Wheatstone bridge is used to measure $\rightarrow$ Resistance
 - lie detector is $\rightarrow$ Polygraph
- Which one of the following pairs is ~~not~~ correctly matched.

Uses of

Odometer - measure the distance traveled by the wheels of vehicle.

Ondometer. Frequency of electro magnetic waves.

Audio meter - sound intensity measuring instrument.
